Data from University Data Warehouse

Total Enrolment

Description A headcount metric that measures the distinct number of students registered in at least one class in the fall term on census day. The percentage shown measures the change of enrolment from the previous year to current year.

Purpose To inform on the levels and trends of enrolment on fall census day.

Fall Census Day Five weeks after the first day of fall term classes when student headcount peaks.

Enrolment By College/School

Description Headcount broken out by colleges and schools for undergraduate and graduate students. The percentage measures the change of enrolment from the previous year to current year.

Purpose To inform on enrolment headcounts and trends for colleges and schools.

Retention

Description First to second year retention measures the percentage of first time, full time, direct entry undergraduates who were enrolled on fall census day in the previous year and are still enrolled on this fall census day.

Purpose This metric measures the success of the university in retaining students from one academic year to the next.

New Students

Description New students include first time students, transfers from other post-secondary institutions, and graduate students who recently completed an undergraduate degree at USask.

Purpose New student enrolment is a leading indicator of future total enrolment as well as a metric of sustainability.

Student Origin

Description Student origin shows the percentage of students who came from Saskatchewan, other Canadian provinces or from abroad based on students' high school, post-secondary, or admissions address.

Purpose To inform on the diversity of the student population based on origin

SK Rural The percentage of students from rural Saskatchewan determined by the postal code of their initial address.

Teaching Activity

Description Teaching activity measures the number of students in classes in the fall term. Students who withdraw from a class after the last day to drop are included in the count. The percentage shown measures the change of teaching activity from the previous year to the current year fall term.

Purpose To inform on teaching activity trends as an indicator of sustainability.

Self-declared Indigenous students

Description Self-declared Indigenous student enrolment data is based on voluntary self-declared data. Self-declared data has not been verified as per the deybwewin | taapwaywin | tapwewin: Indigenous Truth policy. deybwewin | taapwaywin | tapwewin data is not shared nor included in any reporting at this time.

Purpose To inform on the enrolment trends of Self-declared Indigenous students and the diversity of the student population.

International Students

Description International students are students who are not Canadian citizens, permanent residents or refugees such as students on a study permit, inbound international exchange, and visiting international research students. The pie charts show the percentage of international students out of total students.

Purpose To inform on the enrolment trends of international students and the diversity of the student population.

EAP Students enrolled in the English for Academic Purposes program at the USask Language Centre.

Top Five Countries

Description A list of nations having the highest undergraduate and graduate international student enrolment as determined by student citizenship. The percentage shown measures the number of students from a particular nation as compared to the total number of international students.

Purpose To inform on the diversity of the international student population.
